WHY JOOMLA ?

Once you get your Joomla website up and running, it does not required a expert to maintain it. Anybody with a basic knowledge about websites can do it. This feature helps you to keep your important documents and other data being safe.

Here are more reasons to choose Joomla :

POPULARITY

Joomla is one of the most popular CMSs which has been downloaded almost 30 million times as on March 2012 and it is being used all over the world.

ACTIVE SUPPORT

Joomla is having one of the largest active open source community on the net. Thousands of developers are supporting the platform and contributing new features every day. Besides, Joomla Extension Directory offers more than 6000 free and commercial extensions

WHY JOOMLA ?

NO LICENSE COSTS

Joomla has no licence costs being a free and open source project. The cost of a website based on Joomla is generally lower than a website built on a proprietary CMS.

STABLE, RELIABLE AND FLEXIBLE

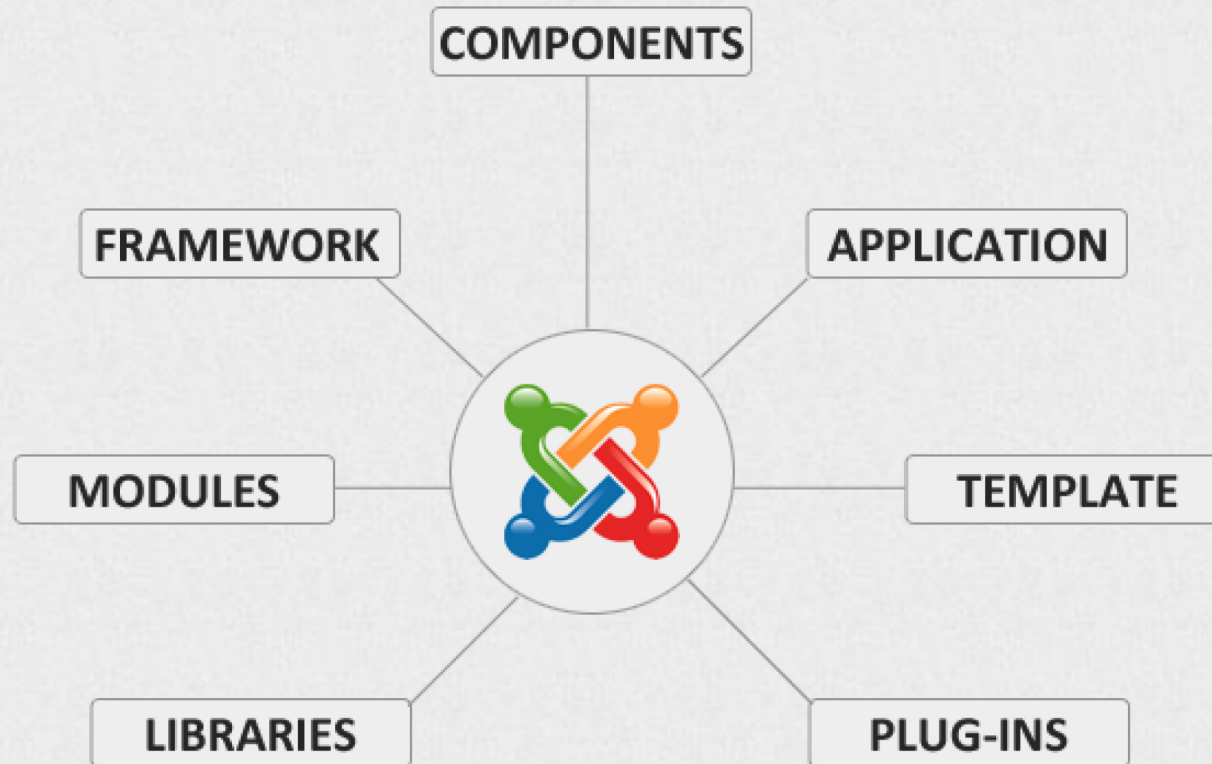

Joomla is based on a solid framework with stable and reliable infrastructure built in its core. And thanks to a huge library of free and flexible extensions Joomla has become the most powerful, robust and extensible Content Management System available today.

Joomla is user friendly and your customers will enjoy going through your site.
